

ICECAP ACCOUNT SERVICE FEES

Account Service Fees represent the cost to own and operate an ICECAP Account. With the account, comes the ability to manage as many "Private Clients" as desired (see below). Also, up to 5 logins can be created without any additional cost.

<u>Account Type</u>	<u>Account Fee</u>
ICECAP Account (Billed Monthly)	\$150/Month
ICECAP Account (Billed Annually)	\$1200/Year

ICECAP PRIVATE CLIENTS

Private Clients are defined by the fact they have no logins associated with them and only the account owner and logins from his or her Company have access to them. This provides a way for a great number of clients to be added, while only charging for Public Clients, which have logins assigned to access data online.

ICECAP PUBLIC CLIENTS

Unlike a Private Client, a Public Client has logins associated with it, which allow users to access their data on ICECAP. As a result, Public Clients have costs associated with them which are automatically applied to your account. The costs are shown below.

<u>Account Type</u>	<u>Public Client Fee</u>
ICECAP Account (Billed Monthly)	\$75/Month
ICECAP Account (Billed Annually)	\$600/Year

ICECAP USER FEES

With each Public Client, comes the ability to have five users (logins) at no additional cost. However, each additional user, beginning at the sixth, will be billed. The costs are shown below.

<u>Account Type</u>	<u>User Fee (6+)</u>
ICECAP Account (Billed Monthly)	\$10/Month per User
ICECAP Account (Billed Annually)	\$120/Year per User
